Toronto, August 14th, 1913.

Professor C. H. Fraser,

University of Toronto.

My dear Professor Fraser, -

I am enclosing a letter which I have just received from Dr. Edward S. Mearns. I have informed him that we have no position in Spanish, but that you would communicate with him about the suggestion he makes in the last paragraph of his letter.

I hope that you are enjoying your holiday.

With kind regards, I am

Yours sincerely,

President.

TORONTO, 12 March, 1914.

President Falconer,  
University of Toronto.

My dear President, -

Dr. di Pietro is anxious to get away a few days before the end of Term. He is going to Italy, and I understand it will be of advantage to him to take his passage for not later than 15th April to secure the winter rate. As I have already made arrangements regarding the examinations he would have to take in May if he were here, and as the work in his various classes can be finished up pretty well by the end of March, I should recommend, subject to your approval, that he be allowed stop work on Friday the 2nd April.

I understand from him that he intends to spend a year in Italy, and I should like to have an opportunity soon of consulting you with regard to providing for the lack of work he has been doing.

Yours sincerely,  
W. H. Fraser.

Professor M. H. Fraser,  
University of Toronto.

Dear Professor Fraser:

If you are able to make satisfactory arrangements regarding the examinations and whatever may be left of Mr. Di Pietro's work I am quite willing that he should be granted leave on the 3rd of April that he may sail for Italy.

I shall be glad to see you at any time that is convenient to talk over the question of his successor.

With kind regards, I am,

Yours sincerely,

President.

Professor M. H. Fraser,  
University of Toronto.

Dear Professor Fraser:

I think it would not be well  
to lose Mr. Catalano, and I shall be willing to do my  
best to get \$2000 for him for next year. I think I  
shall be able to secure that amount, although naturally  
I can hardly speak with finality until after the estimates  
are discussed.

Yours sincerely,

President.
